No variation during either of the months.									
October.			November.			December.			<p>The Consul states, "That within a few days after receipt of the information, that the Ports of Great Britain would be open for the importation of Oats, a purchase of 5,072 quarters, imperial measure, of the same was made here by an English house, which had the effect of raising the price for home consumption 25 per cent, and the consequence was, a prohibition to export any more." No further remarks transmitted this quarter.</p>
The Returns for this quarter have not been yet received. E. J. L.									
St. Petersburg, 30 Sep. 1826. <i>Daniel Bayley,</i> Consul Genl.

These prices include 9d. per quarter for shipping charges.

*Freights:*

Wheat, 4s. to 4s. 6d. per quarter, with 10 to 15 per cent for primage.

Rye, Barley, and Oats not quoted.

*Stock in Granary:*

With regard to Stock in Granary, the Consul regrets he is under the necessity of saying, that it is not in his power to furnish any information which could be depended upon; but humbly begs to refer to his dispatch of the 14th January 1826, in which he states "the medium production of the kingdom of Denmark (Proper) to be, (as compared with the actual exports from the country during the last several years) as follows:—"

	Wheat	Rye.	Barley.	Oats.
	Qrs. Win.	Qrs. Win.	Qrs. Win.	Qrs. Win.
	160,000	870,000	1,150,000	950,000
From which deducting } the annual consumption } of the country - - }	130,000	710,000	860,000	885,000
There remains for } exportation - - - }	30,000	160,000	290,000	65,000

*N. B.*—This Account does not embrace the produce of the Duchies of Holstein and Sleiswig.

Besides the restraints, &c. upon Corn (already laid before Parliament), His Danish Majesty has, for the present, forbid any of the Government-Corn or Grain to be exported.

Copenhagen, 30th June 1826.

Charles Fenwick, Consul.

No variation in the prices during either of the above months.

*Free on Board:*  
About 1 s. 1 d. sterling per quarter, and 10 per cent for commission and primage, for *Wheat, Rye, Barley and Oats.*

*Freights:*  
No shipments of Corn having taken place this half year, no rate of freight has been established, but as small vessels are abundant, they could be chartered on moderate terms.

*Stock in Granary:*  
The Stock in Granary is exceedingly trifling.  
Neither the course of Exchange, nor the price of Gold, have fluctuated much, but the latter continues to be scarce. Trade in general is very dull.

Amsterdam, 30th June 1826.

*R' Melvil,*  
Consul.

October.			November.			December.		
The Returns for this quarter have not yet been received. <i>E. J. L.</i>								

The opening of the Ports in Great Britain for the admission of Rye and Oats, and the scantiness of these crops in this and the adjacent countries, caused a considerable rise in the prices of them in this market. The crop of Pease and Beans has entirely failed. The freights paid for Oats to London have been from 2 s. 6 d. to 3 s. per quarter.

The King has established a new mode of bonding Corn (Wheat and Rye) in this city, in order to facilitate the trade in these articles, in consequence of which, the importer will be allowed to have the Corn under his sole control, and in his private warehouse, and be debited for the amount of the consumption duty, for which he will again be credited on producing proof of the re-exportation of the same, and will only be charged with it on entering the Corn for home use.

Amsterdam, 30th Sept. 1826.

*R' Melvil,*  
Consul

October.			November.			December.		

REMARKS.

*Free on Board:*  
 The expense of putting Wheat and Barley on board, may be calculated at—  
 For Wheat, about 3s. 3d. sterling per quarter Winchester; and for Barley, about 2s. 5d. per ditto ditto.

*Freight:*  
 The charge for freight to England, including 10 per cent for primage, would be about 11s. 9d. sterling per quarter.

*Stock in Granary:*  
 The present stock in Granary may be estimated at about 7,500 quarters Winchester.

*Restrictions:*  
 At present, the importation of Wheat and Barley is prohibited; but the exportation of both is free.

Alicante, 30th June 1826.  
 Jasper Waring,  
 Consul.

*Stock on Hand:*  
 There is no stock of Grain on hand at present, except the surplus of what is weekly brought to the market towns, which (excepting this city, where there is now about 2,000 quarters of Wheat) is very inconsiderable.

The price of freight, including 10 per cent for primage, is about 9s. 5d. per quarter.

Alicante, 30th Sept. 1826.  
 Jasper Waring,  
 Consul.

The Returns for this quarter have not yet been received.  
 E. J. L.

October.			November.			December.			
The Returns for this quarter have not been yet received.									

*Freight:*  
The charge per quarter Winchester for the last Corn shipped to Great Britain, (which was in 1818,) was 11 s. 6 d. per quarter, but at present it could be done at from 9 s. to 10 s. per quarter.

*Extent of Stocks:*  
It is impossible to ascertain, with any degree of certainty, the extent of Stocks in Granary; but it is generally admitted, that an average crop yields, from six to seven months more Grain, than the annual consumption of the kingdom.

Naples, 30th June 1826.  
*Henry Lushington,*  
Consul General.

The harvest is generally very good.  
With respect to the duties and expense of exporting grain, no alteration has taken place.  
The price of Wheat has advanced considerably from the anticipation of a foreign demand.

Naples, 30th Sept. 1826.  
*Henry Lushington,*  
Consul General.

October.			November.			December.		

REMARKS.

Freights:

The charge for freight would not exceed 10 s. per quarter, and about 4 s. to 4 s. 6 d. per barrel of Flour.

Restraints, &c.

There is no restraint upon the exportation or importation of Corn and Grain, other than the following duties imposed by law:

Corn of all kinds (except Wheat and Oats) pays upon importation a duty of 15 per cent ad valorem.

Wheat pays 25 cents per bushel, about 1 s. 1 d. sterling.

Oats pay 10 cents per bushel, about 5 1/2 d.

Wheat Flour pays 50 cents the 112 lbs. about 2 s. 2 d.

N.B.—There is no duty or impediment upon the export of Grain, &c. &c. the produce of the United States.

Philadelphia,  
30th June 1826.

Gilbert Robertson,  
Consul.

The crop has turned out very abundant, and the quality exceedingly good.

The Returns for this quarter have not yet been received.

E. J. L.

Philadelphia,  
30th Sept. 1826.

Gilbert Robertson,  
Consul.

## 1.—ST. PETERSBURG.

Copy of a LETTER from Sir Daniel Bayley, dated St. Petersburg, 19/31st October 1826:—With Six Enclosures.

SIR,

St. Petersburg, 19/31st October 1826.

I HAVE paid all possible attention to your Circular Despatch, of the 29th June last, directing me to furnish all the information in my power respecting the growth and exportation of Corn in this country.

The manner in which the agriculture in Russia is carried on, from the nature of the connection between the owner of the land and the cultivator, renders it impossible to give any fair or useful elucidation on the first head.

I had occasion to enter at some length upon this subject in the year 1822, and I cannot, perhaps, do better than by enclosing a copy of the despatch I wrote to Mr. Planta on the 3/15th July of that year, which will explain some part of the query. In regard to the expense incurred on the passage of Corn through the ports, whether as levied as transit duty in the interior, or by charges at the ports of exportation, I would observe, that very considerable expenses attend the bringing it to market, being grown at a great distance from hence, the adjacent country not producing sufficient for the consumption of this capital, and the province in which it is situated is supplied by flour (chiefly of rye, which forms seven-eighths of what is used here,) grown and brought from the interior, at a distance of from 500 to 1,500 miles. Of course the expense will be proportionate to the distance, and its vicinity to water conveyance. To a small transit duty it is certainly liable, but the *legal* duty is probably trebled by gratuities to those appointed to receive it. The duty on export is,—

On wheat 6 cop. silver per chetvert, ( $3 \frac{1}{2} d.$  per quarter).

On rye - 3 - - ditto - - ditto -  $1 \frac{3}{4} d.$  - ditto.

and the other charges on shipping are not heavy, but vary in a manner that renders it impossible to fix them; depending on the season of the year, weather, and other causes which cannot be defined: perhaps 2s. per quarter would be a fair average of the lighterage and other expenses of putting the grain on board a ship.

In regard to the average prices of wheat in Russia, nothing approaching to it can be formed. It is not a grain generally attended to, and no prices are ever published by authority, as is done of rye and oats; but even of these an average cannot be formed, as a proof of which I enclose a translation of the last return of the prices thus published, (to which I have added the distances from this capital), showing of rye, the great staple of Russia, the difference between 16 *R°* and  $1 \frac{1}{2} R°$ , and a variation of prices almost beyond example in the same empire.

I have now to enclose the following:—

N° 1. Return of the Quantity of Wheat exported from *St. Petersburg*, from 1791 to 1825 both inclusive, with the Average Prices here in Sterling Money per Quarter on the spot:

N° 2. Return of the Quantities of Rye exported from *St. Petersburg*, from 1813 to 1820 both inclusive, and the Average Prices in Sterling Money on the spot:

N° 3. Return of the Quantity of *Wheat* exported from *St. Petersburg* from 1768 to 1790, no Prices obtainable:

N° 4. Return of the Quantity of Rye exported from *St. Petersburg* from 1779 to 1802, no Prices obtainable:

N° 5. Return of the Prices of Rye and Oats, in different provinces of Russia in September 1826:

N° 6. Copy of a Despatch to Mr. Planta, N° 54 of the 3/15 July 1822.

These

These are the best and most accurate Returns I can make, for I found it impracticable to obtain any official information for periods further back than those I now transmit; but I have every reason to believe that the whole of the statements are correct, no pains having been spared in collecting all the information obtainable from the public records and from the books of merchants, and I trust that the calculations Nos. 1 & 2, will be found accurate.

I have the honour to be, &c.

(signed) Daniel Bayley.

John Bidwell, Esq  
&c. &c. &c.

Enclosure, N° 1, in Sir John Bayley's Letter of 19/31 October 1826.

## Enclosure N° 6.

Copy of a LETTER from Sir Daniel Bayley to Joseph Planta, jun. Esq., dated St. Petersburg, 3/15th July 1822, relative to Corn Returns.

SIR,

St. Petersburg, July 3/15, 1822.

I HAVE the honour to acknowledge the receipt of your Circular Despatch of the 17th April, directing me to consider the instructions to send home Returns of the Prices of the several sorts of Grain, &c. within the district of my consulate, as annulled; and that in lieu thereof I am to send home once in every quarter an account of the prices of agricultural produce, made up according to the forms transmitted in your Circular. In reply to these instructions, I beg leave to assure you that no delay on my part should intervene in making the desired Returns, but at the same time it is my duty to acquaint you, that it is beyond my powers to make them according to the prescribed forms, or of what I conceive to be the main purpose required; "The prices free of all charges as paid to the farmers." This difficulty, or rather impossibility, arises out of the constitution of this empire, or perhaps more strictly speaking, from the tenure of landed property, and the nature of the connection between the proprietors and cultivators. Farmers, according to our ideas at home, or of tenants, in common acceptance of these terms, *there are none*. The land is parcelled out by the lord of the soil to his peasants or serfs, all living in villages, and not in single farm houses as with us, in certain proportions according to the number of males in each family, which allotments are changed every three or five years. For the use of this land the lord receives head-money, and a certain number of days labour from the peasant per week or per year. On the produce the peasant lives, and he usually grows a little rye, oats, hemp and flax, or other things, for the consumption of his own immediate family. If there be any surplus beyond his own wants, it is either bartered away at the nearest town for necessaries and luxuries, or with itinerant dealers. There are most undoubtedly exceptions to this state of the case, and also a very great number of peasants who cultivate large tracts of land, and many proprietors of estates who manage them in a manner approaching near to our own system; and these furnish the great mass of supply for the towns and cities as well as for the exportation, chiefly from the Ukraine and Poland.

The general custom is, however, as I have before stated, and I trust you will be satisfied that thus circumstanced, it is impossible to ascertain the facts aimed at; viz. "The prices of agricultural produce, free of all charges as paid to the farmer;" and I am convinced, any return of the kind I could make would only lead to error and false conclusions.

I am, &amp;c.

(signed) Daniel Bayley.

To Joseph Planta, jun. Esq.  
One of His Majesty's Under Secretaries of State,  
&c. &c. &c.  
London.

## 2.—ARCHANGEL.

Copy of a LETTER from His Majesty's Consul at Archangel;  
dated 18/30 September 1826:—With one Enclosure.

SIR,

Archangel, 18/30 September 1826.

SINCE my last Despatch, N° 3, of 10/22d July, I have had the pleasure to receive your Circular of 29th June, accompanied by copy of a Report from the Commissioners of His Majesty's Customs, relative to the application of Messrs. C. Stewart & Co. of Mcmel; also copies of Mr. Lack's Letters to Joseph Planta, esq. of 9th and 26th June; my reply to all which has been delayed, till I had made every possible exertion to procure the desired information as to the prices of Grain within my consulate.

The archives of the Custom-House here affording no correct statements, I had recourse to one of the oldest inhabitants who had been in the habit of keeping accounts of the exports during part of the last century, but from a fire that broke out on his premises two years ago, which made him remove his papers in haste, he has been unable to find the documents in question. I therefore resolved to delay no longer acknowledging receipt of the above Letters; and in doing so, to transmit to you, as directed by the Right honourable George Canning, all the information as to Grain that it has been possible for me to procure, as set forth in the enclosed table of the quantities of wheat, rye and oats exported from hence, from the years 1802 to 1825, inclusive, which I have calculated in English quarters and sterling money, from the measure used in this country, and the average annual course of exchange.

I have the honour to be, &c.

John Bidwell, Esq.  
&c. &c. &c.

(signed) *A. H. Aikin.*

## Enclosure.

AN ACCOUNT of the Quantity of Wheat, Rye and Oats exported from Archangel from the Year 1802 to 1825 inclusive, reduced from the Russian Measure into English Quarters of Eight Bushels; with the Average Prices for each Year, reduced into English Money at the average annual current rate of Exchange.

YEARS.	WHEAT.		RYE.		OATS.	
	Quantity.	Average Price per Quarter.	Quantity.	Average Price per Quarter.	Quantity.	Average Price per Quarter.
	Quarters.	s. d.	Quarters.	s. d.	Quarters.	s. d.

1811	4,306	29 2	10,194	18 4	—	—
1812	11,676	40 1	No rye exported.		—	—
1813	23,973	34 8	15,640	23 10	—	—
1814	3,822	29 —	36,639	17 4	—	—
1815	15,233	33 1	62,952	20 2	—	—
1816	26,319	26 8	39,824	17 6	—	—
1817	85,584	57 2	223,919	29 1	6,934	15 1
1818	89,035	40 2	104,619	25 2	32,955	15 3
1819	30,799	21 8	16,641	15 9	70,390	9 7
1820	32,134	20 1	19,615	14 10	21,645	12 3
1821	5,599	17 6	2,831	10 1	5,657	7 5
1822	10,377	14 2	3,582	9 4	1,670	5 10
1823	8,218	14 7	12,000	9 9	13,234	7 3
1824	4,518	14 3	469	9 7	2,537	5 5
1825	5,566	17 9	204	10 5	575	6 1

In the above Table it is worthy of remark, that the actual prices in roubles, the current money of the country, from the year 1802 to 1810, were considerably less than from 1810 to 1820, but in these years the rouble was worth from 31 and 36 *d.*, down to 15 *d.*, its value in 1810, while from that period to 1820 it was only worth 14, 13, 11 and 10 *d.*; and for the last four years to 1825, 9  $\frac{1}{2}$  *d.* to 10  $\frac{1}{2}$  *d.* sterling.

British Consulate,  
Archangel, 18/30 September 1826.

(signed) *A. H. Aikin,*  
His Britannic Majesty's Consul.

## 3.—RIGA.

Copy of a DISPATCH from Consul Tupper; dated Riga, 3/15th September 1826:  
—With two Enclosures.

SIR,

Riga, 3/15th September 1826.

I HAVE the honour to transmit herewith, for the information of His Majesty's principal Secretary of State for Foreign Affairs, the two Returns required by Circular under date of the 29th of June last.

I beg to state, that as no records calculated to facilitate the object exist in this city, or throughout the province of Livonia, it is altogether impracticable to obtain a statement of the average prices of grain from the early period mentioned; but, by a reference to the books of an old commercial establishment, I have succeeded in forming a correct Report from the year 1800 to this day (N° 1).

In the statement under the head of Exports I have been more fortunate; and N° 2 is a return to that effect, since the year 1783 to the end of 1825.

The expenses attending the passage and transmission of grain from the place of growth to the shipping port are rendered so various by distance, as well as by the different modes of conveyance, that any attempt at calculating the carriage must prove erroneous. Grain is brought to this market partly over land from Courland, Lithuania and Poland, and partly from the interior, down the Duna in barks, usually the property of the grower or inland dealer, and navigated by his own dependents; hence all purchases are made by the shipper receivable at Riga, where a small duty on exportation is levied, which, with other charges, and commission to the merchant, together on wheat, silver *R.* 11.55 per last, makes the present price on board as under:

	R. Silver.	Duty.	Charges.	
Wheat	- 75 per last	- 1.5 <i>SR.</i>	- 10.50 <i>SR.</i>	= 22 <i>s.</i> 5 <i>d.</i> per Winchester Quarter.
Rye	- 60	- 49	- 8.40	= 18 <i>s.</i> 10 <i>d.</i>
Barley	- 50	- 47	- 7.37	= 15 <i>s.</i> Exchange at 9 $\frac{1}{2}$ <i>d.</i>
Oats	- 60	- 59	- 7.75	= 14 <i>s.</i> 4 <i>d.</i>

I am, &amp;c.

John Bidwell, Esq.

Riga, 15 September 1826, n/s.

Tho<sup>s</sup> Tupper, Consul.

## 4.—DANTZIG.

Copy of a LETTER from His Majesty's Consul at Dantzig,  
dated 5th October 1826.

SIR, British Consulate, Dantzig, October 5th, 1826.

I DO myself the honour to transmit eight weekly returns of grain, from the 10th of August to the 28th past, which complete the Returns for the third quarter ; and I also enclose the duplicate of that of the 3d of August. In future I shall transmit them quarterly.

These Eight Returns are to be found in the Consul's Returns of the Prices of Corn and Grain, (separate). E. I. L. (marked N<sup>o</sup> 1. and numbered 26.)

Though prices of wheat have rather declined since the late considerable advance, the supplies brought to market, which become pretty plentiful, are briskly bought up. The present stock may consist in about 200,000 quarters, and about 20,000 quarters more may be expected before winter sets in. Very little of any grain is brought to town except wheat ; and I do not believe there will be much else for exportation in spring ; probably only some little rye.

I am preparing the lists wanted of grain, prices, &c. from the beginning of last century, and have succeeded in getting them more complete than given to Mr. Jacob.

These Lists have not yet been received. E. I. L.

I am, &c.

(signed) *Alex<sup>r</sup> Gibsone.*

J. Bidwell, Esq.  
&c. &c. &c.

## 5.—KÖNIGSBERG.

Copy of a LETTER from His Majesty's Consul at Königsberg,  
dated 10th October 1826 :—With One Enclosure.

SIR, Königsberg, 10th October 1826.

AS no commercial account of the prices of grain is kept here, I found means to obtain the materials of the Return enclosed herewith, from the archives of the Regency ; and when I mention that the agricultural records are very numerous, and not kept in a continuous order, the long interval between the reception of your Letter and the transmission of the Return ordered, will be sufficiently accounted for.

I will forward the ordinary Corn Returns by the next post.

And remain, &c.

(signed) *Thot de Grenier Fonblanque.*

To John Bidwell, Esq.  
&c. &c. &c.

(Enclosure in Mr. Fonblanque's Letter of 10th October 1826.)

A RETURN of the Average Prices of the different descriptions of Grain at Königsberg, from the Year 1700 to the Year 1825, inclusive, reduced into English Measure and Currency, at the par of Exchange (fls. 20—1 l. ster.) and in the proportion of 10  $\frac{3}{4}$  Winchester Quarters to a Last.

YEAR:	Wheat.				Rye.				Barley.				Oats.				REMARKS.
	Per Last.								Per Winchester Quarter.								
	fls.	fls.	fls.	fls.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.			
1700	300	190	86	55	27 11	17 8	8 -	5 1							The addition of the warehouse and shipping charges, which amount to 1 s. 6 d. or 2 s. per quarter, will give the prices free on board.		
1701	180	115	85	60	16 9	10 8	7 11	5 7									
1702	140	90	85	60	13 -	8 4	7 11	5 7

1722	150	75	42	28	13 11	7 -	3 11	2 7									
1723	No accounts.				-	-	-	-	-						During most of the years in which exportation of corn took place, the exchange on England has been below par, so that grain was considerably dearer in English money than appears here. Of the exact state of the exchange during the different periods, no accounts can be obtained; the average rate is supposed to be about 18 florins for a pound sterling. The French war occasionally brought it down to 14 florins.

1820	290	180	120	95	27	—	16	9	11	2	8 10
1821	245	145	100	80	22	9	13	6	9	4	7 5
1822	245	140	110	90	22	9	13	0	10	3	8 4
1823	240	175	150	100	22	4	16	3	13	11	9 4
1824	190	95	70	60	17	8	8	10	6	6	5 7
1825	180	95	70	60	16	9	8	10	6	6	5 7

The excessive prices in these years, are referable to the war and French invasion.

In these years the price of the finest description of wheat was at one time 1,200*fls.* per last, about 120*s.* per quarter.

(Signed) *Tho<sup>s</sup> de Grenier Fonblanque,*  
H. B. M. Consul for E. Prussia.

## 6.—MEMEL.

Copy of a DISPATCH from His Majesty's Consul at Memel;  
dated September 12th, 1826.

SIR,

Memel, September 12th, 1826.

*June 29th/26.*  
IN obedience to the directions contained in your Circular Dispatch, I have endeavoured to procure the most extensive and accurate particulars respecting the average prices of corn and grain within the district of this consulate, and also an account of the quantities thereof exported annually from this port during a series of years. I regret that my endeavours have met with very imperfect success, in consequence of there being no records showing the price so far back as the year 1700, nor any documents which furnish authentic information from a later period. Memel is not a port from whence corn and grain are, or ever have been, exported in considerable quantities. There was formerly an insignificant trade in rye carried on with parts of Sweden and Holland, but even that is now in a great measure discontinued.

The cultivation of arable land fast decreases throughout East Russia, the farmers preferring to cultivate pasture lands for grazing sheep, in the purchase of which they are greatly encouraged by the Russian government, which has appointed agents to sell to the Lithuanian peasants or farmers sheep at low prices, obliging them, in return for this accommodation, to pay for a determinate period an annual interest on the value of the stock so purchased.

I am informed that the exports of corn and grain from this port have seldom exceeded in one year from 5 to 10,000 quarters.

John Bidwell, Esq.  
&c. &c. &c.

I am, &c.  
(signed) *Fred<sup>k</sup> Chatfield,*  
H. B. M. Consul.

## 7.—GOTTENBURG.

Copy of a LETTER from Consul Liddell; dated Gottenburg, October 23d,  
1826 :—With One Enclosure.

SIR,

British Consulate, Gottenburg, 23d October 1826.

I HAVE the honour to transmit to you, for the information of Mr. Canning, a return of the prices of corn and other agricultural produce at the market in Gottenburg, from the 1st January 1781 up to the 5th October 1826.

On account of a delay on the part of the official person from whom I had to procure it, I was unable to forward this document along with the Returns for the quarter ending the 5th instant.

There are no authentic records of the prices of corn, &c. previous to the year 1781.

John Bidwell, Esq.  
&c. &c. &c.

I have, &c.  
(signed) *H. T. Liddell.*

## Enclosure, N° 1.

PRICES OF GRAIN at Gottenburg from the Year 1781 to the present date, 5th October 1826,  
reckoned by the Swedish Barrel of  $4\frac{7}{8}$ ths English Bushels.

## 8.—CHRISTIANIA.

Copy of a DISPATCH from Consul Durie, dated Christiania, 22d August 1826:—With One Enclosure.

SIR, British Consulate, Christiania, 22d August 1826.

I HAVE had the honour of receiving your Circular of the 29th June last, directing me to furnish some information concerning the prices of wheat and other grain in this country, and enclosing two Letters from the Board of Trade on the subject.

Having on the 7th July last handed you my quarterly Report of the prices of grain at this port, I beg now leave to observe, in reply to that part of your Circular which directs me to state every expense affecting the passage of corn through the several ports within my consulate, that no corn of any description is at any time exported from this country; but considerable quantities are yearly brought hither from Denmark.

The import duty on corn, brought hither in privileged ships, is as follows, viz.

A Tönde Wheat - - -	48 sk. silver, or 3 s. 8 d. per Winchester quarter.
Ditto - Rye - - -	36 - ditto - or 2 s. 9 d. - - ditto.
Ditto - Barley - - -	24 - ditto - or 1 s. 10 d. - - ditto.
Ditto - Oats - - -	16 - ditto - or 1 s. 2 ½ d. - ditto.

If imported in ships belonging to nations not looked upon as privileged, the duty is 50 per cent more.

The transit duty on corn landed for exportation is one-tenth of the import duty; thus the transit duty on,

A Tönde Wheat is - - -	4 ¼ sk. silver, or 4 ½ d. per Winchester quarter.
Ditto - Rye - is - - -	3 ¼ - ditto - or 3 ½ d. - - ditto.
Ditto - Barley is - - -	2 ¾ - ditto - or 2 d. - - ditto.
Ditto - Oats - is - - -	1 ¾ - ditto - or 1 ½ d. - - ditto.

The import duty on all articles brought into this country is levied in silver dollars of the value of about 4 ½ to a pound sterling.

There are no public records of the prices of wheat in this country, neither are there any mercantile establishments here of very old standing, whose books could furnish the required information, for any thing near the time fixed in your Circular; hence, although I have used my utmost endeavours to comply with the directions given me in your Letter, I have not been able to ascertain the prices of wheat further back than the year 1786, and a statement of the wheat prices for that period, or the last 40 years, I have herewith the honour to enclose.

I am, &c.

To John Bidwell, Esq.  
&c. &c. &c.

(signed) Charles Durie, Consul.

(Enclosure.)

1825	2	4	12	4 91	1	4	5
1826	3	-	4	6 -	1	-	2

N. B.—From the year 1786 to 1813, accounts were kept in this country in rix dollars, and from 1813 to 1818 in rix bank dollars, each dollar having four marks or 96 skillings. As long as the year 1805 these dollars maintained a value of four shillings sterling, or five dollars per £. 1. with very little variation; but from the year 1805, the Norwegian currency commenced declining, until in the year 1817 the average value of a £. 1. sterling rose to 87, and during the latter part of that year, there was given in single instances as much as 130 dollars per £. 1.

In the year 1819, specie dollars were put in circulation here, and accounts have since been kept exclusively in them. At the par of exchange about  $4\frac{1}{2}$  specie dollars make a £. 1. sterling, but they have fluctuated a good deal, as will be observed from the Table.

24 skillings make one mark.

5 marks make one specie dollar.

(signed) Charles Durie,  
Consul.

9.—HAMBURGH.

—(1.)—

Copy of a DISPATCH from His Majesty's Consul General at Hamburg ;  
dated October 27th, 1826;—With One Enclosure.

SIR,

Hamburg, 27th October 1826.

I ADDRESS you for the purpose of transmitting the return of the prices of agricultural produce in this port during the quarter ended the 30th September last.

The Returns are separate. E. I. L. (marked g. (2).

And in compliance with the directions contained in your Despatch of the 29th of June last, I have added a " Statement of every Expense affecting the Passage of Corn through the several Ports within my District, whether levied in the " shape of Transit Duty in the Interior, or of Charge at the Outport."

I am, &c.

John Bidwell, Esq.  
&c. &c. &c.

(signed) Henry Canning.

(Enclosure.)

A STATEMENT, showing every Expense affecting the Passage of Corn through the several Ports within the Consulate of His Majesty's Consul General at Hamburg, whether levied in the shape of Transit Duty in the Interior, or of Charge at the Outport.

HAMBURG :—The Duties on Corn on its transit from the interior to Hamburg, may be taken at,  
for Wheat from Berlin - - - - - 1 s. per quarter.  
Magdeburg - - - - - 9d. per ditto.  
Prussian and Anhalt Bernburg, ports of the Saale - 1 s. 5d. per ditto.  
Anhalt Dessau and Anhalt Kothen, ports of the Saale - 2 s. 10d. per ditto.

The Freights from the interior, namely, from Berlin, the ports on the Saale, Magdeburg, and other Prussian ports on the Elbe vary, according to the supply of water and vessels, from 1 s. to 3 s. per quarter.

The Charges on shipping Corn at Hamburg are about - - - 1 s. 4d. to 1 s. 6d. per ditto.

BREMEN :—The duties on Corn in its transit from the interior to Bremen, may be taken at,  
for Wheat - - - - - 9d. per quarter.  
Rye - - - - - 8d. per ditto.  
Barley - - - - - 7d. per ditto.  
Oats - - - - - 5d. per ditto.

The Freight on Corn down the Weser varies according to the time of the year, quantity of water, distance of place, &c.

From Hoya, the nearest place, it is about - - - - - 1 s. 2d. per quarter.  
From Minden, the farthest place, about - - - - - 3 s. 6d. per ditto.

The Charges of shipping Corn at Bremen, including an export duty, payable in Bremen, of  $\frac{1}{3}$  per cent. on the value, are from - - - - - 1 s. to 1 s. 2d. per quarter.

—(2.)—

Copy of a LETTER from His Majesty's Consul General at Hamburgh,  
dated 14th November 1826:—With Three Enclosures.

SIR,

Hamburgh, 14th November 1826.

CONFORMABLY to your desire, communicated in Mr. John Bidwell's Circular Letter, dated 29th of June last, I have used my utmost endeavours to procure, and have now the honour to transmit to you the following Returns relating to grain, namely,

“ An Account of the Prices of several sorts of Grain in this District, during a series of Years, from 1792 to 1825.

“ An Account of the Quantities of the several sorts of Grain exported annually from this District, during a series of years, from 1792 to 1825.

“ An Account of the Average Prices of Wheat in Germany, as far as the same can be ascertained, from the Year 1700 to the Year 1825 inclusive.”

I regret, Sir, that from the very imperfect state, and in some cases the total want of any public record of the prices and export of grain in these countries, I have found it impossible to obtain the information called for, and I am therefore obliged to transmit the Returns to you with many blanks in them. At many places within this district, shipments of grain can be made without being entered at any custom-house, and without any account of the quantity exported being required or recorded.

That there has been so much delay in complying with your desire, I am extremely sorry, but although I did not omit to take immediate steps to obtain the required information, by duly writing for it to the proper public authorities within this district, yet to some of the letters, although dated in July last, official answers have been received only this day.

I have the honour to remain, &c.

(signed) *Henry Canning.*

To the Right Honourable George Canning,  
&c. &c. &c.

The prices in this Table are brought into British Money from the prices in the currency of the country, obtained from the best public sources of information within my reach. There will be found, on comparison, many apparent inconsistencies between the prices in different places at the same periods, for which I have not been able to obtain, and therefore I cannot venture to offer any satisfactory explanation, though in some instances possibly it may be accounted for.

Enclosure, No. 3.—An Account of the Average Prices of Wheat in Germany, from 1700 to 1825—continued.

Hamburgh,  
14th November 1826.

(signed)

Henry Canning,  
Consul Genl.

## 10.—AMSTERDAM.

Copy of a DISPATCH from Consul Melville, dated Amsterdam,  
31st July 1826 :—With Three Inclosures.

SIR,

Amsterdam, 31st July 1826.

IN obedience to the orders conveyed to me by a Circular Letter from John Bidwell, esq. dated Foreign Office, the 29th ultimo, I have the honour to state, in reply to the queries therein made, that the circulation of corn and grain within the district of this consulate, and throughout the kingdom of the Netherlands, is quite free, and subject to no duty in the interior; but that on export of the same to a foreign country, one is levied, as follows;—

	<i>f. cents.</i>	
On Wheat of	0 10	per 1,000 Netherland pounds.
Rye - - -	0 7	per - - ditto.
Barley - -	0 10	per last.
Oats - - -	0 10	per ditto.

The duty on the importation of corn from abroad, when not entered in entrepot, is,

	<i>f. cents.</i>	
On Wheat - -	11 25	per 1,000 Netherland pounds.
Rye - - -	7 50	per - - ditto.
Barley - - -	12 0	per last.
Oats - - -	7 0	per ditto.

But when foreign corn is on arrival lodged in the entrepot, from whence it can be re-exported out of the kingdom within two years, a transit duty is imposed, in lieu of any other, at the following rates, viz.—

	<i>f. cents.</i>	
On Wheat - -	1 30	per 1,000 Netherland pounds.
Rye - - -	0 80	per - - ditto.
Barley - - -	2 50	per last.
Oats - - -	1 0	per ditto.

to all which duties a certain per centage is added, varying according to the exigence of the state, and which is for the present established at 13 per cent.

No public document being obtainable showing the export of corn, or any other description of merchandise from this country, and the officers of the customs being extremely unwilling to grant any information on these points, which, indeed, could only be obtained in a complete form at the seat of government, to which all the books of the different offices are periodically sent, and where, probably, a general return is made out, I have only been able to discover it, as well as the importation from the year 1813 to the year 1822, from the report of a committee appointed some years ago by government to investigate into the state of the corn trade, from which I have also extracted the average prices of wheat from the year 1709 to the year 1785, and have the honour to transmit both these documents inclosed; as also the return of prices of wheat, rye, barley and oats from the year 1786 to this date, distinguishing the inferior wheat from the Polish or best, and stating them for each quarter, which I have copied from various brokers price currents; no average returns of these articles being officially made or published in an authentic form in this country.

I have the honour to be, &c.

(signed) *Robert Melvil*, Consul.

To the Right Honourable George Canning,  
&c. &c. &c.

## 11.—ROTTERDAM.

Copy of a DESPATCH from Consul Ferrier, dated Rotterdam,  
5th September 1826 :—With Four Enlosures.

SIR, British Consulate, Rotterdam, 5th September 1826.

IN compliance with the directions of Mr. Secretary Canning, communicated to me in your Letter of the 29th June last, I have been engaged in collecting the further information desired in respect to corn and grain, and am now enabled to transmit enclosed,—

“An Account of every Expense affecting the Passage of Corn through the Port of Rotterdam, whether levied in the shape of Transit Duty in the Interior, or of Charge at the Outport.

“A Statement of the Quantities of the several Sorts of Grain exported from, and imported into the Ports of the Netherlands, from 1814 to 1825.

“A Statement of the Average Price of Wheat at Rotterdam, from 1769 to 1825.

“A Statement of the Average Price of Wheat at Dordt, within the District of this Consulate, from 1700 to 1825.”

Returns from the custom-houses in the southern part of this kingdom are readily obtainable ; but the same facility not existing here, I have been unable to get a separate statement of the quantities of grain exported from the ports of this consulate, and the Return given is therefore of the exports of the whole kingdom, taken from official reports made to the council of state at the Hague. No returns exist of the export of grain from this part of the kingdom earlier than 1814, up to which period from 1725 the export was free of all duty.

In adding the Return of imports to that of exports, I have exceeded the strict letter of Mr. Canning's directions, but I trust the information may be considered of interest ; and with that view I venture further to state, that the consumption of corn in this kingdom has been officially estimated at no more than 4,650,000 quarters per annum ; and in the year 1817, a year of scarcity, it was calculated that the stock fell 770,000 quarters short of that quantity. What surplus stock there may be now in the country, beyond the quantity required by the inhabitants, is matter of very loose speculation ; but the trade consider the excess, if any, to be very trifling.

I have the honour to be, &c.

(signed) *Alex<sup>r</sup> Ferrier.*

## Enclosure, N° 1.

AN ACCOUNT of every Expense affecting the Passage of the Corn through the Port of Rotterdam.

## SHIPPING CHARGES:

Measuring, loading, stowing lighterage in the harbour	-	10 d. sterling per quarter.
Brokerage	-	1 per cent
Merchant's commission	-	2 per cent.

## DUTIES:

Export Duty	-	-	Wheat, about $\frac{1}{2}$ d. per quarter.
			Rye, about $\frac{1}{10}$ of a penny per quarter.
			Barley, about $\frac{1}{2}$ d. per quarter.
			Oats, nearly $\frac{1}{4}$ d. per quarter.
Transit Duty	-	-	Wheat, about 7 d. per quarter.
			Rye, about 5 d. per quarter.
			Barley, nearly 6 d. per quarter.
			Oats, nearly 2 d. per quarter.

## LIGHTERAGE:

From the Land Frontier to the Port of Rotterdam, about 10 d. per quarter.

(signed) *Alex<sup>r</sup> Ferrier.*

## Enclosure, N° 2.

STATEMENT of the Quantities of the several sorts of Grain, exported from and imported into the Netherlands, from 1814 to 1825.

				EXPORTED.	IMPORTED.	REMARKS.
				<i>Imperial Quarters.</i>	<i>Imperial Quarters.</i>	
1814:						From 1725 to 1814, the export of grain from Holland was permitted free of duty, and previous to the latter year there are no custom-house returns of the quantities exported.
Wheat	-	-	-	143,233	131,528	
Rye	-	-	-	7,666	123,963	
Barley	-	-	-	32,870	22,340	
Oats	-	-	-	172,690	6,360	
				356,459	284,191	
1815:						The Returns of 1814 and 1815 regard only the northern provinces of the kingdom.
Wheat	-	-	-	135,197	63,109	
Rye	-	-	-	18,306	171,400	
Barley	-	-	-	83,300	41,400	
Oats	-	-	-	210,010	123,960	
				446,813	399,869	
1816:						The Returns from 1816 to 1825, include both the northern and southern provinces.
Wheat	-	-	-	303,133	154,190	
Rye	-	-	-	147,887	319,000	
Barley	-	-	-	71,100	98,110	
Oats	-	-	-	162,380	5,510	
				684,500	576,810	
1817:						
Wheat	-	-	-	675,689	253,348	
Rye	-	-	-	281,772	1,690,695

## 12.—ANTWERP.

Copy of a DISPATCH from Consul Larpent, dated Antwerp, 16th August 1826 :—With Seven Inclosures.

SIR,

Antwerp, 16th August 1826.

IN compliance with the directions of Mr. Secretary Canning, contained in your Circular of the 29th June last, I have the honour to transmit the accompanying documents.

N° 1.

“ No. 1.—The Average Price of Wheat, Oats, Barley and Rye from the Year 1668 to the Year 1826, collected from the archives in the town hall at Louvain. Some of the registers were irregularly kept at intervals since the year 1795, but I have obtained from the merchants books at Louvain, information sufficient to complete the Account.

N° 2.

“ No. 2.—The same Average Account put into British Sterling Money per quarter Winchester Measure.

N° 3.

“ No. 3.—An Account of the Price of different sorts of Grain on the 1st January in each Year, from 1814 to 1825.

N° 4.

“ No. 4.—An Account of the Price of different sorts of Grain at different periods, Monthly, from the 25th April 1815 to July 1826.

N° 5.

“ No. 5.—Pro forma Invoices, being an Account of the Expense attending the Exportation of different sorts of Grain from the Port of Antwerp.

N° 6.

“ No. 6.—An Account of the Exports of Grain, for the Year 1825.”

N° 7.

I regret to state that it is impossible for me to procure any account of the exportation of grain for any series of years from this port, as the accounts are regularly sent to the director general of the customs at the Hague, and no copy is kept at the custom-house here. I transmit likewise a letter marked N° 7, from one of the principal merchants here, and a member of the Chamber of Commerce, by which it appears that all information respecting the exports and imports, has been constantly refused, even to the Chamber of Commerce.

In addition to the foregoing documents, I hope shortly to procure further information from the office of the burgomaster of this city, but some time must elapse before I shall be in possession of these statements, which must be collected and arranged from a mass of papers.

The documents I have obtained from Louvain may be said to be the most important, as that city is the principal market for corn and grain from the Walloon country, and the rich provinces of Hainault and Brabant.

I have to observe, however, that since the year 1819, the outward trade in corn may be said almost to have ceased, especially from Louvain, and even the inland trade has been in a state of stagnation; rye is, however, pretty constantly shipped from

from Louvain for the distilleries in Holland, and wheat from time to time for Brussels and Ghent. The bakers at Antwerp almost always procure their supplies from the market at Louvain, but this interior trade is trifling.

Into France, corn cannot get, except by smuggling, which is said now to be carried on in a little way, in the neighbourhood of Charleroi. Many of the Walloon farmers who used to frequent the market of Louvain, have for some months taken their corn there; the distance is greater, but they get better prices.

There is no transit or other duty paid on corn from the interior to Antwerp, Flushing, or other ports, in case of exportation; but an octroi or toll is levied on grain entering the different cities of the kingdom, when for *consumption*.

The quantity of wheat, and of other grains in store before the present harvest, was much reduced within the last six months. There were no parcels of any consequence left. Money was scarce, and trade dull; speculators fear to do any thing. The Maats Chappy, or Merchant Company, in which the King, as an individual, has the greatest number of shares, can at any time come into the market, make a sacrifice, and sell lower, or by offering a large parcel, depress the prices. Private persons cannot risk such a competitor. But on the other hand, farmers have now, usually, much more grain in hand than formerly, and do not come to market whilst prices are low. Many of them, and particularly those who are landowners, hold over their corn; and among them large parcels may be collected.

The present wheat harvest is generally good, and in seven-eighths of this country, a fair crop is considered to have been obtained.

The district about Louvain is remarked for good wheats; the farmers prefer that market, and come in freely, because there is no regulation observed as to hours.

I shall continue to transmit such further information and documents as I may be able to obtain.

I have the honour to be, &c.

(signed) *I. J. De Hochepped Larpent.*

John Bidwell, Esq.  
&c. &c. &c.

7 guilders Brabant current money are equal to 6 guilders exchange.

1 guilder Netherland money is composed of 100 cents, and is equal to 1 guilder exchange money.

28  $\frac{1}{2}$  hectolitres arc equal to 10 quarters Winchester measure.

The duties on corn and grain are paid in guilders and cents, Netherland moncy, per last of 30  $\frac{1}{2}$  hectolitres, excepting wheat and rye, which pay per 1,000 lbs. Netherland weight (1,000 kilograms) of every cargo of wheat or rye; 15 hectolitres are weighed by the custom-house, which weight serves as a guide for the weight of the whole cargo.

## CHARGES on CORN, in Current Money:

Measuring - - - -  $\frac{1}{2}$  stiver per hectolitre.

 Consul.

## Enclosure, N° 7.

Monsieur,

Anvers, le 29 Juillet 1826.

Pour satisfaire à la demande que vous m'adressez, relativement au relevé des exportations de grains, tant de ce port, que de celui de Flessingue, depuis un certain nombre d'années, je regrette de devoir vous informer que le commerce ne possède aucune donnée à cet égard; attendu que malgré que la Chambre de Commerce de cette ville, dont j'ai l'honneur de faire partie, se soit adressée à différentes reprises au gouvernement pour obtenir de l'administration des Douanes des États annuels, des importations et exportations, il n'a jamais été fait droit à sa demande, et vous savez comme moi qu'il n'existe aucune publication pour les exportations, à l'instar de celle pour les importations, connue sous le nom de *Trompette Maritime*, qui permette d'établir des calculs approximatifs.

J'ai l'honneur d'être, avec la plus parfaite considération,

Monsieur,  
 Votre très humble & très obeissant serviteur,  
 G. Agic.

Monsieur J. De Hochepped Larpent,  
 Consul de Sa Majesté Britannique.

## 13.—PARIS.

Copy of a DISPATCH from His Majesty's Consul General at Paris, dated  
6th October 1826:—With Three Inclosures.

SIR, British Consulate General, Paris, 6th October 1826.

IN obedience to your directions conveyed to me in a Circular, dated June 29th, from Mr. John Bidwell, I have used my best endeavours to obtain the information respecting some particulars therein detailed, connected with the corn trade of this kingdom, as required by the House of Commons; and having for that purpose addressed myself to the Minister of the Interior, his Excellency gave immediate orders, that every information existing in the archives of his department should be furnished by that branch of it which is specially charged with making out the official monthly Returns I am in the habit of transmitting to the Foreign Office.

The documents herein enclosed, which I have delayed transmitting till now, in the expectation of being able to add further details, contain, as I have been assured by the head of that particular bureau, all the information it is in their power to give on the points stated in the Circular.

They consist of,

(A).—A memorandum of general observations from the Minister de l'Interieure, in answer to the queries put by me; from which it will be perceived, that the required statement of expenses affecting the passage of Corn from the interior to the ports, cannot be furnished, except at the out ports themselves; such statement will, no doubt, have been transmitted by His Majesty's Consuls respectively for the ports of their districts.

(B).—A Table marked N° 1, giving the Quantity of Wheat and Flour exported from France, from the Year 1793 to 1824, both years inclusive.

(C).—Table of the Average Prices of Grain throughout France, from the Year 1756 to 1825.

(D).—English version of the same.

N. B. (C.) & (D.)  
form one Account.  
E. I. L.

I have the honour to be, &c.

(signed) *D. R. Morier,*  
Consul General.

To the Right Honourable George Canning,  
&c. &c. &c.

## Enclosure, (A).

Réponse aux Renseignemens demandés par Mr. le Consul Général d'Angleterre.

Ministère de l'Intérieur, Paris, ce 17<sup>e</sup> Aout 1826.

1°.—Quelle est la quotité des Frais à l'exportation des grains à l'étranger, depuis l'époque del 'achat sur les Marchés ou dans les greniers de l'intérieur, jusqu'au moment de leur sortie par les frontières de mer ou de terre?—

La quotité des divers frais dont il s'agit est extrêmement variable. Un grand nombre de circonstances peuvent influer sur le taux de ces frais ; les négocians en grains sont seuls en état d'avoir des données exactes sur le cours moyen de pareilles dépenses ; C'est auprès de ceux qui se livrent à ce commerce, dans les places maritimes ou de terre, qu'on pourrait obtenir les informations demandées.

Quant à l'administration, elle n'a, dans ses cartons, que des documens et des renseignemens informes ; c'est seulement pendant les années de pénurie, où il arrive de faire quelques achats de grains, qu'elle cherche à se procurer et à recueillir des données qui puissent la diriger dans ses opérations, ou lui fournir les moyens de contrôler celles qui ont eu lieu d'après ses ordres ; ainsi la commission des subsistances de 1816 et 1817, avait réuni plusieurs notions sur les frais dont il s'agit, mais de tels renseignemens, pris dans des années de cherté ne peuvent servir de règles pour les tems ordinaires.

Il n'existe point de droits de transit ni d'octroi. La circulation des grains à l'intérieur est libre, et les règles générales de la législation ne permettent pas de soumettre les grains à des droits d'octroi ; seulement, dans certaines localités, il existe des droits de halle, pour l'exposition des grains sur les Marchés.

A l'égard des droits des douanes, à l'exportation des grains à l'étranger, la loi du 28<sup>e</sup> Avril 1816, les a fixés à 25<sup>e</sup> les 100 kil. brut.

2°.—Etat des quantités annuellement exportées du royaume, pendant une serie d'années ; en distinguant les exportations par les frontières maritimes, de celles par les frontières de terre?—

L'Etat ci-joint, N° 1, contient, sur cette partie de la statistique, tous les renseignemens qu'on a pu réunir et qu'on a jugé pouvoir satisfaire à la question posée par M. le Consul.

Quant à la distinction des exportations par mer de celles qui se font par les frontières de terre, il ne serait possible d'établir, qu'au moyen de recherches et de travaux qui exigeraient beaucoup de tems ; mais on peut calculer que les exportations par terre s'élèvent annuellement à peu près au dixième de la totalité des quantités portées sur l'état.

3°.—Prix moyen du Blé Froment, année par année dans tout le royaume de France, depuis 1700 jusqu'à la presente année?—

L'Etat ci-joint, N° 2, présente le prix moyen de l'hectolitre de Blé Froment, depuis 1756 jusqu'à 1825, inclusivement. Il est impossible de pouvoir fournir le même renseignement pour les autres espèces de céréales : toutefois on estime que généralement et dans les années ordinaires, le prix du Froment, comparé à celui des autres céréales, est à peu près dans les rapports suivans ;—

Savoir,

A celui du seigle, comme 6 : 4. à ceux de l'orge et de l'avoine 4 : 2.

## Enclosure (B). N° 1.

RELEVÉ des quantités de Grains et Farines exportées de France à l'Etrangers, pendant les Années ci dessous indiqués.—Evaluation en quintaux Métriques.

14.—HAVRE DE GRÂCE.

Copy of a DISPATCH from His Majesty's Consul at Havre, on the subject of French Corn and Grain :—With One Inclosure.

SIR, British Consulate, Havre de Grâce, 16th August 1826.  
IN compliance with your Circular of 29th June, I have done every thing in my power to obtain the information therein requested, which I now have the honour to enclose.

I cannot procure the Prices of Grain in this Department further back than 1790 ; nor the Quantity of Grain exported previous to 1825.

I trust the other particulars will prove satisfactory.

I have the honour to be, Sir, your most obedient servant,

Arch<sup>d</sup> Gordon, British Consul.

To John Bidwell, Esq.  
&c. &c. &c.

(Enclosure.)

AN ACCOUNT of the Prices of Grain in the Department of the Seine Inférieure, during the following years.

YEARS.		WHEAT.	RYE.	OATS.	OBSERVATIONS.

## 15.—CAEN.

Copy of a LETTER from His Majesty's Consul at Caen,  
dated October 1826 :—One Inclosure.

SIR, British Consulate, Caen, October 1826.

I HAVE the honour herewith to transmit to you, for the information of Mr. Secretary Canning, an Account of the Average Price of Wheat, Rye, Barley and Oats, that have been sold in the different markets throughout this department, since the commencement of the year 1812 to the 30th of June in the present year.

I was in hopes I should have been able to have obtained a return of the price of wheat from a much earlier period, and this is the reason of my having deferred replying to the Circular which I had the honour to receive from you, dated Foreign Office, June 29th. 1826, but the authorities here are so cautious and fearful of committing themselves in any way, that I could not possibly prevail on them to allow me to examine the records which have been preserved in their offices, of the prices of wheat and other kinds of grain; and it was not without a good deal of difficulty that I could even obtain the enclosed Return.

The exportation of grain from the ports within the district of my consulate, has heretofore been very limited; for owing to the great quantity of land that is employed in the cultivation of rape seed, (that crop yielding a greater profit to the farmer than any other) the supply of wheat, barley and oats raised in this district has never very far exceeded that required for its consumption; and unless a very great improvement takes place in husbandry, or some substitute is found for rape oil, I do not think that the exportation of grain from this part of France is likely to become at all considerable.

To John Bidwell, Esq.  
&c. &c. &c.

I am, &c.  
(signed) William Ogilby.

(Enclosure.)

AN ACCOUNT of the Average Price of Wheat, Rye, Barley and Oats, sold in the different Markets throughout the Department of Calvados, in the Kingdom of France, since the commencement of the Year 1812 to the 30th of June 1826.

YEAR.	AVERAGE PRICE Per Quarter, Winchester Measure, Calculated in Sterling Money at the par of Exchange.				OBSERVATIONS.

Done at the British Consulate Office at Caen, this 30th day of September 1826.

(signed) William Ogilby,  
H. M. Consul for the Department of Calvados, &c. &c.

## 16.—NANTES.

Copy of a LETTER from Sir Richard Clayton, dated Nantes,  
17th September 1826 :—One Inclosure.

SIR, British Consulate, Nantes, 17th September 1826.

IN conformity to your Letter of the 29th June, I forward the Corn Returns as far back as there is in this department a possibility of getting them. In a former Dispatch I suggested for Mr. Canning's information, the difficulty there would be in the acquisition of any reports during the turbulent time of the French revolution. This part of the kingdom was, indeed, more exposed to it than any other and in the Vendean war, where Nantes was so continually implicated, what I suspected had been the case, was literally so. Every public proceeding during that period was destroyed and burnt, as either party prevailed; and with every assistance from the prefet of the department and the mayor of Nantes, they could only furnish me with part of the enclosed Statements.

There is no duty whatsoever on corn in this country, except the trifling "droit de balance," as it is termed, which amounts to 25 centimes, or 100 kilogrammes, (about 200 lbs.) and is intended merely to defray the expense of weighing it, and to ascertain the quantity.

For the last five years I have been able to procure an account of the quantities sold in the various markets of the department.

Within the last four or five years there has been little exported from this department, there having been no foreign demand for it whatsoever, and small quantities only having been wanted for Marseilles and Brest. There is, therefore, nearly the produce of a whole harvest on hand, at present.

This department would of itself furnish annually, without inconvenience or effect on its own consumption, 150,000 hectolitres (about 50,000 quarters) of wheat; 500,000 hectolitres (166,666  $\frac{2}{3}$  quarters) of rye; and 80,000 hectolitres (26,666  $\frac{2}{3}$  quarters) of oats. Barley is only cultivated upon a small scale.

Exportation is prohibited when the price of wheat rises to 22 francs the hectolitre (or about 3 bushels).

The freight from Nantes to London or Liverpool varies from £. 1. to £. 1. 10 s. per ton, according to the scarcity or number of vessels to take on board the cargo, with the addition of a bonus of 10 per cent to the captain.

I flatter myself I have been able to furnish as comprehensive a detail as Mr. Secretary Canning will receive from the other consulates. If the contrary should be the case, he will have the goodness to consider it to have arisen, not from any want of exertion, but the destruction in this department of every public record during the Vendean war.

The amount of the expenses of the transport of corn from the interior to the port of Nantes, I have added in French, as there would be some difficulty in reducing the *technical* terms into English.

I have the honour to be,  
&c. &c. &c.  
(signed) *Richard Clayton.*

To John Bidwell, Esq.  
&c. &c. &c.

## 17.—CHARENTE.

Copy of a DISPATCH from J. Close, jun. (pro Consul) dated  
Charente, 23d August 1826.

SIR, British Consulate, Charente, 23d August 1826.

I HAVE the honour to acknowledge the receipt of your Circular of 29th June, enclosing copies of two Letters from the Board of Trade, respecting the prices of foreign corn and grain on the continent.

In answer thereto:—

The exportation of wheat in this department is only allowed when the price is under 20 francs per hectolitre. There are no transit duties thereon in the interior. The only charge is that of 25 centimes per 100 kilogrammes at the out port, with the addition of the décime, or a tenth, over and above.

The importation of said grain is allowed when the price is above 20 francs per hectolitre:—

	f.	d.	
At that price the duty is	-	-	3 25 per hecto.
At 21 francs	-	-	2 25 -
At 22 francs	-	-	1 25 -
And above 22 francs	-	-	- 25 -

} and the décime.

The above duties are applicable only to grain imported by a French vessel from the country where grown.

Imported by a French vessel from any other country than that of which it is the growth, there is one franc per hectolitre in addition.

Grain imported by a foreign vessel (not French) or by land carriage, pays the following duties:—

	f.	d.	
At 20 francs per hecto.	-	-	5 50 per hecto.
At 21 francs	-	-	4 50 -
At 22 francs	-	-	3 50 -
And above 22 francs	-	-	1 25 -

} and the décime.

*Vide Charente (in  
Consul's Returns)  
for half year ending  
30th June 1826.  
E. I. L.*

My letter of 21 ultimo, contained the prices of the several sorts of corn and grain that have any value at present in this district.

As to the quantities annually exported, this department would not ship any corn for foreign ports, and little for the ports of France; there has been none shipped even for the latter since the year 1811, which is the cause of the low price of wheat in this district at present.

The average price of wheat in France cannot be obtained in this department for a series of years, and can only be had correctly of Mr. Petit, Chef de Bureau au Secrétariat de l'Intérieur, at Paris.

No exact account of the price of corn can be found in this department further back than 20 or 25 years, the average price from that time is from 18 to 20 francs per hectolitre (about 41s. 11  $\frac{3}{4}$ d. sterling per quarter Winchester), and according to the report of the oldest farmers, that is the average price for the last 50 or 60 years.

I have the honour to be, &c.

(signed) J. Close, jun. pro Consul.

To John Bidwell, Esq.  
&c. &c. &c.

P. S.—Should I procure hereafter “An Account of the Average Price of Wheat in this Department for a series of Years, to the present time; distinguishing each Year,” which till now, I have not been able to obtain, I will immediately transmit it to you.

## 18.—BAYONNE.

Copy of a DISPATCH from Mr. Consul Harvey, dated Bayonne,  
10th August 1826:—One Inclosure.

SIR, His Majesty's Consulate, Bayonne, 10th August 1826.

ACCORDING to the instructions contained in your Circular of the 29th] of June, I beg leave to forward to you herewith, for the information of Mr. Secretary Canning, a Return of the Average Prices of Corn and Grain from the Year 1796, it being quite impossible to procure accounts of an anterior date, all records and public documents, of every description, being either lost or destroyed during the French revolution.

The enclosed Account, as far as it goes, may be relied upon, having extracted it myself, from the records of the mayoralty of this city.

With respect to the quantities of grain exported annually from this port, it will be found by the enclosed Letter from the director of the customs, and the accompanying Enclosures, that this district does not produce a sufficiency for its consumption, and that they are in the habit of importing considerable quantities from Brittany and elsewhere.

There is no duty levied in the shape of transit duty in the interior; the charge at the out port is  $5\frac{1}{2}$  sols per 100 kilogrammes, custom duty, as stated in my weekly Returns of Corn and Grain.

I have the honour to be, &c.

(signed) *J. V. Harvey*, Consul.

To John Bidwell, Esq.  
&c. &c. &c.

(Enclosure.)

AN ACCOUNT of the Average Prices of the several sorts of Grain, each respective Year,  
as hereinafter stated; viz.

Bayonne,  
10th August 1826. }

J. V. Harvey,  
Consul.

Douanes Royales. Direction de Bayonne. 3<sup>e</sup> Division. Grains.

Le Directeur des Douanes, à Monsieur le Consul de Sa Majesté Britannique à Bayonne.

Monsieur le Consul,

INVITÉ par votre Gouvernement à lui fournir un état des Grains exportés annuellement du port de Bayonne depuis plusieurs années, vous avez pensé que je pourrai vous procurer des documens pour votre travail, et par la lettre que vous m'avez fait l'honneur de m'écrire hier vous désirez que je mette à votre disposition les archives de la Douane, en remontant, s'il est possible, jusqu'aux années qui ont précédé la Revolution.

Je suis bien fâché, Monsieur le Consul de ne pouvoir satisfaire à votre demande; mais outre que ce pays récolte peu de grains en egard à sa population, qu'il en reçoit même de la Bretagne et que dès lors les exportations sont très minimes.

Je dois vous faire connaître que, dispensée par les lois de la conservation des archives après deux années revolues, la douane ne pourrait dans aucun cas, vous procurer les registres antérieurs à 1824.

Bayonne,  
le 29<sup>e</sup> Juillet 1826.

J'ai l'honneur, &c.

(signé) C. Rrere.

## 19.—CORUNNA.

Copy of a DISPATCH from Consul Bartlett, dated Corunna,  
6th September 1826 :—One Enclosure.

SIR,

Corunna, September 6th, 1826.

PURSUANT to the orders contained in your Circular Letter of 29th June 1826, I have the honour to enclose a Return of the Prices of Grain in this City and Province during the last 100 Years, extracted from the Archives of the Municipality of this City. I shall use my utmost endeavours to procure the most extensive and definite information respecting the prices of corn and grain at the different ports within this consular district. There is no public charge whatever on the passage of corn through the ports of Galicia.

John Bidwell, Esq.  
&c. &c. &c.

(signed)

I am, &c.  
Richard Bartlett, Consul.

(Enclosure.)

1826	11	—	5	16	7	—	6	—	6	16	14	—	14	—	—

*N. B.*—Thirty-four maravedis are equal to 1 real of vellon; the real of vellon is the 20th part of the gold dollar, and its value in that metal is  $2\frac{1}{2}d.$  sterling; but in British silver, at  $5s. 2d.$  per ounce, standard, and is worth  $2.59^d.$

*Note.*—One hundred ferrados of Corunna, are equal to  $29\frac{1}{2}$  Castilian fanegas; the Castilian fanega equals 1,599 English bushels, hence 5 fanegas are nearly equal to 8 English bushels, or 1 quarter.

Corunna, }  
Sept. 6th, 1826. }

(signed) *Richard Bartlett,*  
Consul.

## 20.—CADIZ.

Copy of a LETTER from His Majesty's Consul at Cadiz,  
dated 6th October 1826.

SIR,

Cadiz, 6th October 1826.

IN reply to your Dispatch Circular of the 29th of June, I have the honour to state that the exportation of corn is prohibited in Spain.

There is no record kept, that I can find, of the prices of grain, in any of the towns within my consulate.

The quarterly Returns which I have been in the habit of transmitting, are furnished from accounts forwarded by my vice-consuls at Seville, St. Lucar, and Xerez, and made out from their own local knowledge and observations.

I am, &amp;c. &amp;c. &amp;c.

(signed) *J. M. Brackenbury.*

To John Bidwell, Esq.

&amp;c. &amp;c. &amp;c.

## 21.—MALAGA.

Copy of a LETTER from His Majesty's Consul at Malaga,  
dated 6th September 1826.

SIR,

British Consulate, Malaga, September 6th, 1826.

I HAVE the honour to acknowledge your Circular of the 29th June 1826, relating to the prices of foreign corn and grain on the continent.

In giving every attention to the subject of the details required, I request you will be pleased to acquaint the Right Honourable Secretary of State, that I am not able to give any further information than that sent in my usual Reports, owing to this district not producing sufficient corn for its own consumption, consequently having no exports of that article.

There are no records kept of the prices of grain in this province, and my official Returns are compiled from my own observations principally; which, trifling as they are, cost me very considerable anxiety.

I am, &amp;c.

(signed) *W<sup>m</sup> Mark, Consul.*

To John Bidwell, Esq.

&amp;c. &amp;c. &amp;c.

## 22.—ALICANTE.

Copy of a LETTER from Consul Waring, dated Alicante,  
November 1st, 1826:—One Enclosure.

British Consulate,

SIR, Province of Valencia, Alicante, November 1st, 1826.

THERE having occurred many delays at different places in this district, in obtaining the prices of grain from the records for a series of years, it has not been in my power, notwithstanding the unceasing diligence I have used, to make out sooner the general Statement, in conformity to the instructions contained in your Dispatch, dated the 29th of June last. The most remote period which I could get information of, has been the year 1790, and this only relating to wheat and barley, and which general Statement I now beg leave to transmit herewith.

I have the honour to be, &c.

To John Bidwell, Esq.  
&c. &c. &c.

(signed) *Jasper Waring.*

(Enclosure.)

AN ACCOUNT of the Average Prices of Wheat and Barley in the Province of Valencia; from the Year 1790 to 1826, obtained from the Records of the Public Market-Houses, and of Mercantile Establishments.

## 23.—BILBOA.

Copy of a LETTER from His Majesty's Consul at Bilboa,  
dated 5th November 1826.

SIR, British Consulate, Bilboa, 5th November 1826.

I BEG leave to acknowledge the receipt of your three Letters of the 29th June (Circular), and 17th and 18th August, which reached me by ship on the 6th of October; it has therefore been impossible for me to procure the "Account of the Average Prices of Wheat," required by your said Circular, until last week; I now transmit it to you enclosed, made up to the end of September, from the year 1700, with the exception of the years 1731, 1732, 1787 and 1788, which were not found in the records.

In further reply to your said Circular, I have to observe, that this province scarcely produces wheat sufficient for the consumption of its inhabitants, and a great deal is introduced from Castilla, particularly for the use of this town; the quality being in general far superior. Since the scarcity in the southern provinces, a great quantity has been, and continues to be brought down from the interior to be shipped at this port for the said provinces; but there is no permission at present for its exportation to foreign parts.

Besides wheat, maize is the only grain cultivated in Biscay, and is principally consumed in the districts where it is raised; it is now worth 24 s. per quarter.

In the regular Returns forwarded from this consulate, I shall be as particular as possible in giving every information in my power on this subject.

I have the honour to be, &c.

(signed) *William Hoyles.*

To John Bidwell, Esq.  
&c. &c. &c.

(Enclosure.)

ACCOUNT of the Average Prices of Wheat in the Province of Biscay, Kingdom of Spain, from the Year 1700 to the end of September 1826, reduced to Sterling Money at the Par of Exchange, at per Quarter of 8 Winchester Bushels.

*N.B.*—The wheat here quoted is introduced from Castilla and adjacent districts, and the prices, of course, include the carriage and municipal duty in this market, the former being from 7*s.* to 10*s.* per quarter, and the latter 6*d.* per ditto. There is no transit duty in the interior.

The wheat produced in this province (Biscay) is of an inferior quality, and is worth from 2*s.* to 3*s.* per quarter less than the Castilian, both taken in this market.

Bilboa, 5th Nov. 1826.

(signed) William Hoyles.

## 24.—BARCELONA.

Copy of a DISPATCH from Consul Annesley, dated Barcelona,  
13th September 1826 :—One Enclosure.

SIR,

Barcelona, 13th September 1826.

I HAVE the honour to enclose you a Statement of the Prices at which Wheat has been sold in this province, since the year 1792 up to the termination of the last year; the produce of the country, and that of foreign importation, is separately marked.

Corn is very scarce at present in Catalonia, a circumstance which, in all probability, would be more severely felt by the labouring classes, was it not for the frequent supplies smuggled into the country, and retailed at a fair and moderate price: the contraband system is now carried on to such an extent, that scarcely a day passes without a vessel landing her prohibited cargo on the coast, in open day, under the eyes of the custom-house officers, and often within a very short distance of Barcelona.

An extensive corn speculation is also carried on here by some of the French authorities, upon the plea of supplying the French troops; but it is the general opinion, thus entered at this port, that the French troops are not the only persons who profit by this free importation.

I have the honour to be, &amp;c.

To John Bidwell, Esq.  
&c. &c. &c.

(signed) *James Annesley*, Consul.

(Enclosure.)

James Annesley, Consul.

25.—NICE.

Copy of a DISPATCH from Consul Lacroix, dated Nice,  
11th October 1826:—One Enclosure.

SIR, British Consulate, Nice, 1st of October 1826.

IN reference to your Circular Letter dated 29th ult. I have the honour to transmit to you, the *Account of the Prices* of the several sorts of Grain, and other *Articles*, the raw produce of agriculture of this country, free of all charges, as paid to the farmer during the preceding *three months*; I beg also to forward, an *Account of the Average Prices of Wheat* in this district from the present time back to the year 1797, being the latest period to which I have able to procure accurate information.

Adverting to Mr. Canning's request to procure and transmit to him an account of the quantities of the several sorts of grain exported annually from ports of this district, I beg leave to observe, that in consequence of this being a very hilly country, and entirely occupied by olive plantations, the produce of wheat is not equal to the consumption, and there is therefore none exported.

This Account properly belongs to the first set of the Consuls Returns of the Prices of Corn and Grain, &c.; but, from the reasons hereinafter expressed, the same is not considered of sufficient consequence to be taken any notice of.  
E. I. L.  
N. B. The price of wheat is generally very high.

I have the honour to be,  
(signed) P. Lacroix.

To John Bidwell, Esq.  
&c. &c. &c.

## 26.—BASTIA.

Copy of a LETTER from Consul Palmedo, dated Bastia,  
October 26th, 1826:—Two Enclosures.

SIR,

Bastia (Corsica), October 26th, 1826.

IN answer to the questions contained in the Circular dated, "Foreign Office, June 29th, 1826," which I received on the 2nd inst. from Paris, through the deputy of this department, I have the honour to state:—

That there is no example of passage of corn through the ports of this island, neither could such passage easily be permitted, on account of the want of buildings appropriated to hold depôts, and that in consequence there exist no regulations about expenses affecting such passage of corn.

That no corn or sort of grain is ever exported from Corsica to foreign ports, because in the rare cases of an excess of the harvest over the demand, (which has taken place only twice within the ten years that I know this island, and never before) the small superfluity of corn is not allowed to be shipped to others, but to French ports.

That there exist no records, either public or private, showing the prices of wheat as far back as the year 1700, and that a diligent research has hitherto only been able to furnish the information contained in the Enclosure, N° 1.

I have also the honour to transmit on this occasion, the Return of the actual Prices of several sorts of Grain, &c. in the Enclosure N° 2, but beg leave to repeat the observation, that these prices are rather taken from conclusion than from facts; because the generality of the inhabitants of this island, inclusive of those who live in towns, are small proprietors, and that therefore the little corn trade which exists is extremely limited, almost imperceptible, and of an arbitrary nature; which circumstance will also plead for my being precluded from fulfilling regularly my duty to send the usual Returns.

I have the honour to be, &amp;c.

(signed) *A. Petri Palmedo.*

To John Bidwell, Esq.  
&c. &c. &c.

## 27.—GENOA.

Copy of a DISPATCH from Consul Stirling, dated Genoa, 26th August 1826 :—With Two Enclosures.

SIR,

British Consulate, Genoa, 26th August 1826.

IN obedience to your Circular Letter of the 29th of June, which I received on the 24th of July, I have the honour to enclose the Returns N<sup>os</sup> 1 and 2, which will show the exact quantities of grain annually exported from this port between the 1st July 1819 and the 30th of June 1826. I am sorry the director of the custom-house here could furnish no information prior to the year 1819. Under the heads of *Remarks*, I have fully stated the charges on exporting and re-exporting grain.

Genoa is the only trading port within this consulate. When grain is sent from one place to another, it is accompanied with a custom-house paper, called, "Bolla di Circolazione," without paying duty; there is only the charge for transporting grain, which is according to the distance.

It was with great difficulty I could procure the average prices of wheat since the year 1790, as there are no records kept in the custom house of such prices, I have obtained the information in the return N<sup>o</sup> 2. from an old mercantile house of this city.

I have the honour to be, &amp;c.

(signed) *J. Stirling.*To John Bidwell, Esq.  
&c. &c. &c.

## Enclosure, N° 1.

## RETURN of Wheat and other Grain Re-exported from the Port of Genoa.

From what Place.	YEARS.	Foreign Wheat Re-exported.	Other sorts of Grain Re-exported.	Rice Exported.	PRICES.

	1824	361,496	83,468	48,880	Wheat - - 18 - 32 } ditto. Legums - - 10 - 17 } Rice - - - 16 - 20 }
	1825	409,073	112,581	79,112	Wheat - - 16 - 33 } ditto. Legums - - 10 - 19 } Rice - - - 18 - 20 }
	1826 up to 1 July.	151,815	27,892	43,414	Wheat - - 17 - 32 } ditto. Legums - - 11 - 18 10s. } Rice - - - 18 - 19 }

REMARKS:—The duty of exportation on all sort of grain, when permitted, is 5 centismes per decimal quintal. The exportation is at present permitted.

The duty of re-exportation, which is called "Ostellagio," is 35 centismes on every decimal quintal of wheat, and 20 centismes on any other sort of grain; which duty is paid on shipping.

The expenses, besides the abovesaid duty on shipping any sort of grain, amount from 10 to 11 sous of Genoa per mina, when the grain so shipped is withdrawn from the storehouses in the town. If transhipped from on board, the expenses, not including the above-specified duty, amount to only 8 sous per mina: if a vessel sails with the same cargo, there are no charges; but if any part of the cargo is discharged here, then the fourth of the before-mentioned duty of "Ostellagio" is charged on the quantity left on board.

The duty on exporting rice is 3 francs and 35 centismes per decimal quintal; but there is a drawback of 3 francs and 30 centismes on each decimal quintal of rice when it is exported by Sardinian vessels, or by vessels of a nation where no difference of duty exists, whether the rice is imported by native or Sardinian vessels.

The duchy of Genoa produces very little wheat. The Genoese make use of wheat, produce of the island of Sardinia, which pay only one franc duty of entry per mina.

One mina is reckoned to be equal to a decimal quintal; 100 minas are equal to 42 and  $\frac{1}{2}$  Winchester quarters.

The quantity of grain now in deposit here is about 260,000.

(signed) J. Stirling.

Genoa,  
26th August 1826.

## 28.—LEGHORN.

Copy of a LETTER from His Majesty's Consul at Leghorn,  
dated 13th October 1826.

SIR,

Leghorn, 13th October 1826.

I ENCLOSE an Account of Grain, and the other agricultural productions of Tuscany, for the three months ending the 30 ult.

The wheat in regard to quantity may be considered a fair average crop; but, in consequence of the excessive rains, the grain is much lighter than usual. Of oats, barley and beans, the crops have been satisfactory, and that of Indian corn most abundant.

This not being a corn country (the produce being insufficient for its consumption,) there is seldom any exportation of the growth of the state; but, when such does take place, neither transit nor other duty is paid.

Foreign grain imported into Leghorn, pays a duty of seven soldi (equal to 2  $\frac{2}{3}$  d. sterling) per sack, and one soldo further per sack, when exported.

Of the small quantity of Tuscan wheat exported, no register is kept; nor is there any record from which the average price can, for any length of time back, be ascertained.

I am, &amp;c.

(signed) *John Falconar.*

To John Bidwell, Esq.  
&c. &c. &c.

For these Returns, vide the Consular Returns of the Prices of Grain, &c. (separate). E. I. L.

## 29.—VENICE.

Copy of a LETTER from His Majesty's Consul at Venice,  
dated October 6th, 1826.

SIR,

Venice, 6th October 1826.

IN transmitting you the usual weekly Statement of the Prices of Corn and Grain in this market during the quarter now just expired, I beg to state, with reference to that part of your Circular of the 29th June last, requiring a specification of every charge affecting the passage of corn and grain through the ports of this consulate, that every kind, the produce of the Austrian dominions, may pass through these states free of any charge, in the form of transit or other duty, either in the interior or at the out port, excepting a small duty on exportation, the tariff of which was transmitted by Mr. Tatam the 3d January last.

Foreign corn and grain coming to the Venetian ports, for the purpose of exportation, may pass through the Austrian states, under certain regulations, *free of all duty*, whether import, transit or export.

As many difficulties present themselves in obtaining the other points of information required by the above-mentioned Circular, I am necessitated to beg further indulgence before I can reply thereto.

I am, &amp;c.

(signed) *W. T. Money.*

To John Bidwell, Esq.  
&c. &c. &c.

N. B. These Prices are separate. E. I. L.

## 30.—TRIESTE.

Copy of a LETTER from His Majesty's Vice Consul at Trieste,  
dated October 12th, 1826.

SIR,

Consular Office, Trieste, 12th October 1826.

IN conformity to the instructions contained in a Circular Letter dated Foreign Office, June 29th, 1826, I have the honour to transmit such information on the subjects therein mentioned as I have been able to procure; and as Trieste (where I reside) is the only port within the district of this consulate at which any considerable quantities of corn are shipped for exportation, what I have to report will be chiefly referable to *it*.

Duties and Charges  
on Grain.

The first point to which I am directed to attend to is, "The Expense of every kind affecting the passage of Corn through the ports of this consulate, whether levied in the shape of Transit Duty in the interior, or of Charge at the out port."

Grain shipped at this port is the produce,

1st.—Of Friuli, or other of the nearer provinces of the kingdom of Venice and Lombardy :

2dly.—Of Romagna, Ancona, Urbino, and other parts of the papal states :

3dly.—Of Hungary, and more particularly of the Bannat and the adjacent districts :

4thly.—Of the Russian provinces bordering on the Black Sea, chiefly from Odessa.

Lastly, of Egypt.

Hence it appears, that the corn exported from this place is in part re-shipped, being previously brought hither by sea, and that which comes from Hungary is subject to land-carriage. Notwithstanding this circumstance, considerable quantities of corn have occasionally been sent from this port to Spain, Portugal, the Ionian Islands, and also to Genoa, Leghorn and Marseilles.

Grain, in whatever ships it may be brought, is, at this port, subject to no duties, either of entry or sortie, excepting only *that* of  $\frac{1}{2}$  per cent *ad valorem*, payable on all goods and merchandize indiscriminately, and which is not of the nature of customs, but rather to be considered as a port charge; neither grain or other merchandize is, however, liable to this duty, if declared for transit; the charge applying only to articles destined for consumption within the Austrian states, without being re-shipped: and, by a special permission, goods are allowed to be sent to the fair of Sinigaglia, in the papal states, and if there unsold, to be returned to this port free of duty.

Wheat may be brought from Friuli, Venice and Ancona at a trifling charge. The expense of land-carriage from Hungary is greater; but the first cost of corn in the Bannat is generally so low, that it might be shipped in the ports of the Adriatic at an equal, if not a lower price, than the produce of Venice or Romagna. There is an excellent road over the mountain-country between Fiume and Carlstadt, the tolls on which, now rather high, would be reducible in proportion to the increase of traffic upon it. The abundance of horses and other cattle for draught, the cheapness of provisions and fodder, and the low price of labour, would facilitate the transport either to Fiume or Trieste.

Grain from the Black Sea, or from Egypt, re-shipped here, is subject to the charge of freight from the different ports respectively, to insurance, port charges, and commission; but there is no duty, either of transit or other kind, payable thereon at this port.

Prices of Grain.

The price of grain at this port is an aggregate of the first cost at the place of growth, and of the expense of transport; and whether derived from Hungary by land, or by sea from South Russia, Egypt or Italy, its price here is nearly the same, the difference in the first cost being compensated by that in the freight and charges.

For the present current prices of grain, I beg leave to refer to the usual monthly Returns.

Annexed hereto is a Table, showing the Average Price of Wheat at this place for a series of 25 years, from 1801 to 1825 inclusive.

I have not been able to extend it further back, for want of authentic documents; nor have I been successful in my endeavours for procuring exact accounts of the quantity of grain annually exported from hence since the beginning of the last century. It would not in fact be at all interesting, even if it could be ascertained.

These prices are to  
be found in the  
weekly Consular  
Returns of 1826.

E. J. L.

Quantity of Grain  
annually exported  
since 1700.

Trieste, though a place of great antiquity, was not until lately of any importance in a commercial respect, its trade during the first half of the eighteenth century was extremely limited. It then drew its supplies of grain, as it does at present, from the neighbouring provinces of Italy and Hungary; and it does not appear that any corn was exported from hence to foreign parts in quantity sufficient to merit notice.

The events of the war of the European powers against the French republic, the consequent blockade of the principal ports of the continent, and the fall of Venice and Ragusa, contributed to raise Trieste to its present importance. Its trade and population rapidly increased, and though it suffered much during the French occupation, it is now in a very thriving state.

With respect to grain, it has occasionally carried on a very considerable trade in wheat, imported from Odessa and Alexandria, not only for home consumption but also for exportation to Spain, Portugal and other countries. During the war this trade was very brisk. In the last years of scarcity, 1815 to 1818, the importations were excessive, and the sudden fall of prices had the same effect here as in other parts of Europe: many capitalists and merchants, speculators in corn, were ruined, and since that period little business has been done in this article.

Should the ports of Great Britain be opened to the introduction of foreign grain, there is no doubt but much would be shipt at Trieste. Maize has been lately exported, and can be delivered in England or Ireland at 20 s. per quarter, all charges included. Good wheat might also be supplied (free of duty) at about 30 s., and as the prices in Germany would, in case of a demand, speedily rise, and neither the Black Sea nor the Baltic is navigable the whole year, it is highly probable that corn, the produce of Hungary and Italy, shipped in the ports of the Adriatic, would be able to compete both in quality and price with that of any other country.

I have the honour to be &c.

(in the absence of Geo. During, Esq. Consul)

*Henry Bynner*, Vice Consul.

To John Bidwell, Esq.  
&c. &c. &c.

(Enclosure.)

A TABLE showing the Average Price of a Quarter of Wheat in Sterling Money, at the Port of Trieste, during a series of Years, from 1801 to 1825 inclusive; with Remarks, tending to explain the causes of the fluctuation in the Prices.

## 31.—FIUME.

Copy of a DESPATCH from His Majesty's Consul at Fiume, dated  
August 14th, 1826 :—One Inclosurc.

SIR,

Fiume, 14th August 1826.

I HAD the honour on the 2d inst. to acknowledge the receipt of your Circular of the 29th June, and also copies of two Letters from the Board of Trade, with the Resolution of the House of Commons for obtaining the most extensive and accurate information respecting the Prices of Foreign Corn and Grain on the continent, &c. &c.

For which object I had solicited, by a note to the governor, that reference might be had to the registry of this district for obtaining the information required ; and having now received the governor's note in answer, have the honour to transmit a translation of the same from the Italian, as follows :

No. 195.

(Notc.)

“ By your esteemed note of the 1st inst. you request of me to communicate the prices of wheat for a series of years in this government district, as also to indicate the quantity of wheat annually exported from hence.

“ With regard to the first demand, you can best obtain the desired information from the merchants ; and with reference to the second, I have the honour to assure you, that in the years 1780 and 1782, there was exported from this Littorale, more than one million metzen of Hungarian wheat, and that this quantity, and even more, could be now exported from the Hungarian kingdom (*a*).

“ And as relative to the existing current prices of wheat from Hungary, I find it a duty to inform you, that it is now in treaty on the part of the kingdom, to obtain the Private Linigia Road (*b*), and to abolish the present existing toll, which on its taking place, as it is hoped, our wheat with regard to the price can be in competition with that of Odessa, as it is also in point of quality, being much superior.

Fiume,  
9th August 1826,

(signed) *Francesco d'Ūrmény.*”

---

To His Britannic Majesty's Consul, Fiume.

On which subject I am given to understand, that many of the old records and documents of the government have been lost during the time this district was occupied by the French, from the years 1809 to 1813 ; I have, however, obtained from a merchant, the average prices of wheat (which is the principal grain for exportation) from the year 1788 to the present, as annexed. As the ports of this district are now a part of the Hungarian kingdom, there are no transit duties on the passage of the corn from the interior, nor other than 1 karantan per 100 funti weight (123  $\frac{7}{8}$  pounds English) which is about 1  $\frac{2}{3}$  *d.* per quarter, as an exportation duty, which is mentioned in my quarterly Return, &c.

---

(*a*) One million metzen makes about 236,500 quarters of our new measure.

(*b*) By the nation purchasing this road, so as to be free of toll, except for repairs, will make a difference of about from two to three shillings per quarter less in the price of wheat when brought to Fiume.

It is also to be remarked, that the navigation to and from the ports of this district, and Adriatic Sea, is by no means difficult or dangerous, but easy, with the common necessary precautions of navigation, and therefore much safer, and also nearer to the respective ports in the Mediterranean, as also to the coast of Portugal, France, England, &c. than from the port of Odessa in the Black Sea, in which navigation there is danger and risque; consequently the expenses of freight of insurance will be always less from the ports of this district to any port either within or without the Mediterranean, than from Odessa to any of such ports.

I have the honour to be, &c.  
(signed) *Jn<sup>o</sup> Leard*, Consul.

John Bidwell, Esq.  
&c. &c. &c.

(Enclosure.)

NOTE of the Average Prices of Wheat at Fiume, for the following Years, which is reduced to English Money per Quarter, at the Par of 9*f.* 25*k.* per £. Sterling.

## 32.—MESSINA.

Extract of a DISPATCH from His Majesty's Consul at Messina,  
dated 27th of September 1826.

“ YOUR communications have engaged my attention, which treat of the quantities and prices of the several sorts of grain annually exported from Sicily. I beg leave to annex the translation of a Letter, which I received on that subject from a very intelligent Sicilian gentleman who resides in Catania, a part whence considerable shipments of grain are made, whenever there is a demand in a foreign market. That translation I will thank you to lay before the Right Honourable Secretary of State for Foreign Affairs, as by it he will see how difficult it is to procure accurate information, and that in procuring it to the extent required in the third paragraph of your Letter of the 29th June, weighty expenses must be incurred.

“ It may happen that His Majesty's government is not aware that corn and all kinds of grain are brought from the coasts, and interior of the island, into the city and port of Messina for the supply of the population, as this district does not furnish a sufficient quantity for the local consumption, consequently no kind of grain is ever exported directly from this port; farther, in the great earthquake of 1783, the city records were almost totally lost, and those extant, are for a very short period.”

(signed) *W. W. Barker.*

---

(Translation.)

Sir,

Catania, 10th September 1826.

I learn that you are desirous of obtaining, if not a precise, an approximate statement of the quantities of wheat, barley, oats, rye, rice, and other grain produced in the ear, exported from this island, from the “ Carricatori ” of Terranova, Alicanta, Girgenti, Siculiana, Castellamare and Termini (*a*), from the year 1700 to the present time, together with the respective prices in each year; as also the duties payable in the interior, and at the ports of exportation; but if such a report cannot be had for so long a period, to have it from the most remote term for which it can be obtained.

I should have attended with much pleasure to your request, had it been in my power to give you satisfactory information, but neither myself nor any other person in this island can comply with your request, not even in approximation; and if any one has the hardihood to say he can do it, it must be done in the way I am about to describe, or he will give you a fictitious account, instead of a true and effective statement.

---

(*a*) Carricatori—Depôts and loading-places on the coast, of which there are six; vide above.

To execute the undertaking with any degree of success, it will be necessary to employ some respectable person who has friends in the island, with whom he must confer personally at the "Carricatori," and at those places where the registry of the annual exportation is preserved by the keeper of the archives, using no little application and industry, and perhaps he would require the assistance of one or more intelligent clerks; he must also pay the regular fees to the keeper of the archives, should his certificate be required.

Respecting the prices in each year, I have to remark, that annually in Sicily, in every community where there is a "Carricatore," a council of the municipal officers is convened; this council fixes the prices of the different grains which are sold for the relative population, and different prices for such quantities as are sold to be exported from the "Carricatori" coastwise; these rates regulate the prices of those purchases that have been made, by advancing a sum of money in anticipation, on account thereof; the seller being bound to consign the quantity sold at the prices which have been fixed by the municipalities or councils, on getting in the ensuing harvest; the prices, however, at which the speculators who have purchased grain resell it to the merchant who buys for exporting it to a foreign market, have always varied, generally with an augmentation, sometimes at double the first price, but seldom more; scarcely ever less than the first cost; but of the prices at which exportations from the kingdom have been made, it is almost an impossibility to obtain an approximate estimate.

By the registrar of the archives of this municipality, I am informed, that from the registries thereof the prices may be ascertained even so far back as 1700, if then they will be acceptable you may command me, but to every other part an intelligent person must be sent, or you must have in every place a friend who is willing, and who knows how to execute the business with exactness.

I am, &c.  
(signed) *Paul Daniele.*

## 33.—PHILADELPHIA.

Copy of a LETTER from His Majesty's Consul at Philadelphia ;  
dated August 23d, 1826 :—With two Enclosures.

SIR,

Philadelphia, August 23d, 1826.

I HAVE to acknowledge your Circular Letter of 29th June on the 16th instant.

I have the honour to state, for the information of His Majesty's government, that the prices put down in the weekly Returns, sent regularly from this office, include all charges on grain, except the expense of shipping, which is very trifling. No duty exists in the United States on any of its produce exported to any part of the world, and this exemption is secured by the constitution.

The export of grain from the United States for a series of years has been so trifling that it scarcely deserves notice. It is but very lately that accurate accounts have been kept of the exports from this country ; and I have taken an account, from the reports of the secretary of the Treasury; of its extent from the year 1822 to the present date, by which it will be seen that the whole exports are quite unimportant. This Statement is enclosed, and is marked (A).

A report of a Committee on Commerce was presented to Congress the 15th March 1822, annexed to which I find a Statement of the price of Flour from July 1802 to January 1822, at the market of Baltimore, a copy of which I send herewith, marked (B). In looking over this Statement, it will not escape notice how fluctuating the market had been, and still continues to be, according to the demand from foreign countries.

I know of no record kept here of the state of exports except at the custom house, and I have at various periods endeavoured to procure a perusal of both that, and imports, without success.

The

Enclosure, (A.) - - - - -

A GENERAL ACCOUNT of all the Wheat, Flour, Corn, Bread, &amp;c. exported from the

DATES.		WHEAT.		FLOUR.		INDIAN CORN.	
From	To	Quantity in Bushels.	Value in Dollars.	Quantity in Barrels.	Value in Dollars.	Quantity in Bushels.	Value in Dollars.
1820 : Oct. 1st	1821 : Sept. 30th	25,821	20,925	1,056,119	4,298,043	607,277	261,099
1821 : Oct. 1st	1822 : Sept. 30th	4,418	3,080	827,865	5,103,280	509,098	378,427
1822 : Oct. 1st	1823 : Sept. 30th	4,272	5,663	756,702	4,962,373	749,034	453,622
1823 : Oct. 1st	1824 : Sept. 30th	20,373	20,740	996,792	5,759,176	779,297	351,665
1824 : Oct. 1st	1825 : Sept. 30th	17,990	18,570	813,906	4,212,127	869,644	429,906

The Statements now sent are from the documents laid before Congress, and comprehend the exports from the whole country.

I would here beg leave to remark, that the scantiness of exports in grain is not from the capability of the soil to produce extensively, but from the want of foreign demands; and if the ports in England were open for the admission of American wheat and flour, the farmers of this country would turn their attention to the cultivation of grain in preference to raising so much tobacco and cotton as they are now compelled to do, and which has extended to North Carolina, Virginia and Maryland, in the absenc of a market for corn, which was ever considered as the natural product of those states.

It is quite clear that too much tobacco and cotton are raised for the demand.

The extent to which the cultivation of wheat, barley, oats and Indian corn could be carried on in North Carolina, Virginia, Maryland, Pennsylvania and New York is incalculable, if they could find a tolerable market, and they would be very glad to take moderate prices. It is entirely owing to the want of a market that the cultivation in those articles is so limited.

I have read the communication from the Board of Trade with attention, in regard to getting Returns so far back as the year 1700. That must apply to European countries, and not to these states.

There were no regular returns made to any department in this country previous to the adoption of the federal constitution in 1789, and even after that period it was long before a system was digested to regulate the commercial concerns of the nation. It is now, however, very accurately attended to, and the annual report of the Secretary of the Treasury to Congress can be relied upon as authentic.

I am, &c.

(signed) *Gilbert Robertson.*

34.—NEWPORT.

Copy of a DISPATCH from Consul Gilpin; dated Newport, (R. I.), August 17, 1826.

SIR, British Consulate, Newport, 17th August 1826.

I HAVE the honour to acknowledge the receipt of your Circular of the 29th June, in which you inform me that His Majesty's government are still desirous to obtain the most extensive and accurate information respecting the price of foreign corn, &c.

In answer to which I beg leave to assure you that no wheat is raised in the state of Rhode Island, nor is there any imported. The whole consumption in this state of wheat flour is imported from other states in barrels, and but little re-exported, chiefly to the West Indies.

Under these circumstances no record exists of the average price of wheat within this consular district.

Indian corn (maize) is the grain chiefly raised here, which is generally used among the lower classes for bread; but of this little is exported, as the production of it does not much exceed the consumption, especially since the increased population in the manufacturing districts. The average price is about a dollar per bushel.

Rye, barley and oats are also raised within this district, but very little of either is exported.

Rye is used for bread, and for the distilleries, which require considerable im—portations from other states.

A fly has latterly attacked the barley crops, which has prevented the farmers from sowing so much as they used to do; what barley is raised is bought up by the brewers, who also import a considerable quantity. It has no price at present.

It appears to me that the farmers have latterly turned their attention more to sheep than grain, as the wool meets a ready market from the manufacturers.

With these remarks, I trust I have complied, as far as I possibly could, with your Circular, for the information of His Majesty's government.

I have the honour to be, &c. &c.

(signed) John Gilpin.

To John Bidwell, Esq.  
&c. &c. &c.

## 35.—NEW YORK.

Copy of a LETTER from Consul Buchanan, dated New York,  
October 1st, 1826:—One Inclosure.

Sir, British Consulate, New York, 1st October 1826.

IN obedience to the Circular dated 29th of June, which I have had the honour to receive, requiring in addition to the particulars respecting foreign corn, which I have been in the habit of forwarding, that I should state every expense affecting the passage of corn within my consulate, whether in the shape of transit duty or charge at out ports; also to use my utmost exertions to transmit an account of the prices of the several sorts of grain, and quantities thereof exported annually from this port during a series of years; and to procure the average price of wheat in the state of New York, as far as practicable, from the year 1700.

In reply I have the honour to state, that there is not any charge of transit duty in the interior, or charge at any out port, for the exportation of grain; there are not any regular returns kept in this city of the prices of grain, to which I could resort with the hope of any accurate return; the average price of wheat in this city for the last 30 years, I have alone been able to obtain by examining the oldest file of newspapers in this city. The return of the quantity of grain exported cannot be procured for a greater number of years than set forth in the enclosed Return, by reason of the removal of the custom-house documents, nor where such returns kept with any accuracy until lately; but the officers of the customs connected with that department state, that returns have been made for a number of years to the department of state at Washington.

I have the honour to be, &c.

To John Bidwell, Esq.  
&c. &c. &c.

(signed) *James Buchanan*, Consul.

(Enclosure.)

## RETURN of Grain exported from New York.

In the YEARS	Bushels of WHEAT.	Barrels of FLOUR.	Bushels of INDIAN CORN.	Barrels of INDIAN MEAL.
1822 - -	- - -	123,258	143,614	38,099
1823 - -	2,013	117,101	257,382	45,028
1824 - -	6,600	165,131	281,056	57,897
1825 - -	- - -	141,470	187,970	56,483

Average price of Wheat at New York, from 1796 to 1826, per quarter of eight bushels, 74s. 1d. sterling.

Average for the last eleven years, being a time of peace, per quarter, 50s. sterling.

N. B. The average for the last five years would be still lower.

The rate of exchange may be quoted for the last eleven years, at an average of 6 per cent. premium for bills on London, which further reduces the price to the purchaser for the British market.

British Consulate,  
New York, 1st October 1826. }

(signed) *James Buchanan*,  
Consul.

## 36.—NORFOLK. (U. S.)

Copy of a DISPATCH from Consul Gray, dated Norfolk,  
15th September 1826.

SIR, British Consulate, Norfolk, 15th September 1826.

I HAVE now the honour, in compliance with your instructions, to state to you, as the result of my inquiries, and the best information I have been able to collect upon the several particulars embraced in Mr. Bidwell's Circular of the 29th of June last, relative to the different sorts of grain produced in this district, that, as regards the first point, corn of every description is usually delivered by the farmer in his own waggons (free of any extra expense to the purchaser) at the different mills, or, if to be transported to an out-port, at the nearest "landings" of the rivers, where vessels are in waiting to receive and convey it to some of the other states for a market, the general freight for which is about eight cents per bushel. There is no "transit duty," or other charge upon it "in the interior" whatever.

In regard to the second point, I am to observe, that very little grain of any sort was *raised* in Virginia until after the Revolution, and none *exported* therefrom prior to the year 1785, at which period the price of wheat was about 75 cents per bushel (of 60 lbs.), and Indian corn 30 to 35 cents, which rates continued until a year or two after the war between Great Britain and France took place, when the former rose to about 1 \$50 and fluctuated from that to 2 \$25 (and the latter in the same proportion, until the peace of 1814). For the last ten years wheat has averaged about 90 cents, and Indian corn 40 to 45.

Since the year 1785 the quantity of both these articles, raised in this state, has been gradually increasing; and it is estimated that rather better than three millions of bushels of the first, and about two millions of the second, have been *exported* annually for the last ten years, principally, however, ground into flour, and to the neighbouring states, and but a small proportion direct to foreign markets. There are also about 20,000 bushels of barley, averaging 65 cents per bushel, and probably about the same quantity of black-eyed pease (average price about 75 cents), exported annually, but no other sorts of grain.

I do not find that any records, either of the prices or quantities of corn produced in the state, have been kept; and the present information is derived, therefore, from private sources only, but at the same time from persons, I have every reason to believe, well informed upon the subject.

I have the honour to be, &c.

(signed) *William Gray.*

To the Right Honourable George Canning,  
&c. &c. &c.

THE HISTORY OF THE  
CITY OF BOSTON

The history of the city of Boston is a subject of great interest and importance. It is a city of many centuries, and its history is full of events and incidents that have shaped the city and the nation. The city was founded in 1630, and since that time it has grown from a small settlement to a major city. The city has been the center of many important events, and it has played a significant role in the history of the United States. The city is known for its many landmarks, including the Freedom Trail, the Old State House, and the Boston Common. The city is also known for its many parks and green spaces, including the Boston Public Garden and the Arnold Arboretum. The city is a city of many firsts, and it has many interesting facts and stories that are worth knowing. The history of the city is a rich and varied one, and it is a testament to the city's resilience and strength. The city has overcome many challenges and has emerged as a major city in the world. The city is a city of many opportunities, and it is a city that is always growing and changing. The history of the city is a story of a city that has always been a city of firsts, and it is a story that is always being written.
